Mask Policy

Following the City of Winona's city-wide mask order, the Winona Family YMCA will require all staff, members, and participants to **wear a mask when entering or exiting our facility, and when transitioning between areas or activities within the facility.** You do not need to wear a mask while working out.

The order takes effect at 12:01 am on Friday, July 10 and goes for 30 days. The proclamation could be extended. A mask order protects the health and safety of our community and will help keep our businesses open.

Compliance with the ordinance means the **mask must cover the nose and mouth the whole time the mask is in place.**

What does this mean for members:

Children-any child over 2 years needs to be masked. Children under two should be carried to childcare center **or** ensure hands remain to themselves while traveling through the building.

Pool attendees-mask needs to be worn through out the building and should be removed only when ready to enter the pool. Masks can be stored in the laundry baskets at the end of each lane. When exiting the pool, as soon as dry please replace mask and keep in place as you proceed to exit the building.

Fitness attendees-mask needs to remain in place until you are in your designated box of workout space. Mask can be removed for you work out and should be replaced when done and exiting the building.

Wellness Center attendees-need to have a mask on as entering and exiting the building. Masks should be in place when moving around between areas but is not required when lifting or exercising on machines.

Gyms, racquetball, pickle ball attendees-masks need to be in place when exiting and entering the building but can be removed when playing ball. Please do your best to remain considerate of the requested 6 ft. of social distancing space if with other participants.

Thank you for physical distancing, washing your hands regularly, sanitizing hands and wiping down equipment, and wearing a mask.
